

# Regenerative Pasture Management + Winter Impact Follow Up

Mitchell Cat Creek Farms is a cow calf operation that also finishes grass-fed beef. They sell beef direct to consumers, and are working to adopt regenerative practices that help restore soil health and function. They use bale grazing & unrolling coupled with adaptive grazing methods to manage fertility and improve their ecosystem function.

## Mitchell Cat Creek Farms

15412 Hersey Rd

Hersey MI 49639
